

# *Town of* **Pawleys Island** SOUTH CAROLINA

## **HURRICANE IRMA UPDATE – 9/9/17**

There will be no evacuation ordered for Georgetown County and access to the Town of Pawleys Island will not be restricted. We are still at risk for tropical storm force winds and storm surge. Please remain aware and use extreme caution.

Heavy rain is likely Sunday and Monday, including the increased risk of coastal flooding based on high tide and possible storm surge. It is reasonable to anticipate these conditions could flood the Causeways and force their temporary closure until the water recedes. Information about potential road closures will be posted to the town's website and social media pages.

### **Property Owner & Resident Information**

- Monday's Town Council meeting (9/11/17) is canceled.
- There are no plans to cut electric or water service in advance of the storm, but there still remains the possibility of outages during the storm.
- The Georgetown County Emergency Management Call Center remains open at (843) 545-3273.
